

INTERVENTION CHECKLIST FOR ADMISSION OF VENTILATED COVID 19 PATIENTS FROM EU TO CC.

**This pathway is not prescriptive and will be dependent on patient flow.
All interventions are to be completed in the shortest time interval irrespective of patient's location. This is to ensure the minimal number of personnel changes / PPE use.**

Clinical Management of patient to follow the Critical Care stabilization checklist

INTERVENTIONS

	TICK DONE	DATE	TIME:
PVC X 2			
ARTERIAL LINE			
ENDOTRACHEAL TUBE
