

Medical management of patients with COVID-19 and RCTs - June 2021

For all admitted patients please also recruit to the observational ENLIST study

Add the test code "iSAVE" alongside routine bloods for COVID-19 patients to allow otherwise discarded samples to be kept. Contact Dr Mark Ponsford (Whatsapp 07849 659492) who will arrange retrospective consent

Diagnoses to consider in deteriorating patients

- worsening COVID (low PCT, D/W research team re: potential trials)
- secondary bacterial infection (high PCT, Rx antibiotics)
- PE (consider CTPA, Rx LMWH)

see <https://covid-19hospitalguideline.wales.nhs.uk/>

If you have any patients you think may be eligible for trials please get in touch with the research team at your site: bleep 6666, ext. 47859, Researchdelivery.Cav@wales.nhs.uk.

This is intended as a guide and may rapidly become out of date. It is not a substitute for clinical judgement. For clinical advice/help please speak to respiratory/infectious diseases or microbiology on-call out of hours via switchboard.
